JOB DESCRIPTION

Hi! 🙌

We are **Mirumee**, a Python and JS/TS software house specializing in developing unique products. Since **2009**, we've been helping businesses transform by delivering sustainable, API-first, efficient, and modern solutions. Our expertise empowers brands across **Healthcare, Commerce, and Self-Publishing**, from high-volume online retailers to disruptive innovators featured on the **Forbes Next Billion Dollar Startups** list. We actively contribute to **open-source projects**—check out our work here: [GitHub.com/mirumee](https://github.com/mirumee). But first of all, we care about **technical excellence, open communication, and treating each other with respect as equal human beings**.

We are looking for an experienced **Python Developer** to maintain and develop our healthcare project on a **fixed-term cooperation (6 months)** with an option to extend

Profile

- Experience in web development

- Excellent knowledge of Python
- Strong understanding of SQL and experience in the optimization of databases
- Experience with distributed systems based on queues
- Good understanding of Linux, UNIX systems, and Docker
- Experience with version control systems (Git)
- Experience with GraphQL
- Familiarity with Flask and SQL Alchemy
- Strong will to constantly learn and improve as we go
- You will work and enhance our in-house tools
- Good command of English (both written and spoken)

Responsibilities

- Building web applications that solve problems
- Analyzing customer needs and proposing adequate solutions
- Writing efficient code
- Reviewing code changes
- Deploying your work
- Supervising less experienced team members

Nice to have

- Experience with telemetry (New Relic)
- Understanding AWS
- Experience with database optimization
- Skilled in marshmallow-object serialization and deserialization

Benefits

- **26 days** of paid service disruption per is a standard for us 🌴
- Personal development in the fast-growing industry based on your and our needs: boredom is something foreign to us
- Work wherever the way you want: we don't care if you start at 6 or 10 am and give you the choice to choose between a beautiful office, home office spot or combine both!
- We give you **5** extra days for health recovery (b2b) and the basics to take care of prophylactically - private healthcare that works (Signal Iduna) & sports card (Multisport Plus) for free
- Work-life balance (and we mean it!)
- High-end tools, physical (MacBook) and software ones
- And much more that we want to share during interviews!
